

About the Client

Client is the leader in production and wholesale commercialization of nitrogen fertilizers in South America.

ProKarma Upgrades SAP ERP to ECC 6.0 for a Large Agribusiness Company in Buenos Aires

BUSINESS CHALLENGE

To upgrade a complex 10 year-old installation with 3000+ custom developments and keep integration with other satellite systems such as Enterprise Portal and Business Intelligence with minimal disruption.

SOLUTION BENEFITS

The client requested ProKarma to upgrade their existing SAP ERP R/3 4.6c to the new version ECC 6.0.

The solution included the following SAP components:

- Finance, Treasury and Controlling (FI-CO-TR)
- Material Management (MM)
- Sales and Distribution (SD)
- Production Planning (PP)
- Human Resources (HR-PY, HR-PA)
- Quality Management (QM)
- Plant maintenance (PM)

BENEFITS

- On-site and off-site team combination allowed cost reduction.
- Replaced some custom developments with new standard functionality (TCO reduction).
- Enabled new technology for further enhancements.

The project included both functional and technical consultants. SAP Solution Manager (ASAP) was used for project management.
